

AGE/ACTIVITY TIERING

```
Active (recent, always in prompt)
Standard (retrieval pool)
Deep archive (6+ months)
```

IMPORTANCE TIERING

Importance tiering on a 1-10 scale,
auto-assigned

People, topics, ideas.

Monthly summaries that are locked between each month. Entities automatically assigned to each message.

All-time summary composed from previous
monthly summaries.

Concepts are AI-controlled patterns, realisations and meta-memories.

Notes are a specific section of the context window reserved for AI-written text that should be consistently available,

OTHER LOCAL STORAGE
